

# Revit Worksharing Revealed

Course

3 hours \*

**Revit Worksharing Revealed** explores the need for multiple users to work simultaneously on Revit projects. This course is designed to not only offer insight on how to setup worksets but also to use worksets on a daily basis. The students design their own worksets on a project and also collaborate in teams over a shared network.

**Prerequisite:** Basic knowledge of Windows Operating System and a strong working knowledge of any Revit based platform.

**Autodesk**  
Authorized Training Center

Visit [mwcad.com](http://mwcad.com) for a complete class schedule or call us at 800-279-3221.

\* The suggested course duration is a guideline. Course topics and timeline may be modified by the Instructor based upon the knowledge and skill level of the course participants.

**What students are saying about our courses:**

“I very much enjoyed the Revit classes that I took with MWC. They were informative and at a good level of difficulty. The instructors had a great knowledge of their subject matter and were able to answer questions that I had. I look forward to implementing what I have learned as we make the transition. Thank you for providing good quality teachers and training.”  
- Jeff Ballantyne,  
WBI Architects

## Worksharing Concepts

- Setup the Default Worksets
- Process Overview
- Create a Central File
- Move Building Elements to the Appropriate Worksets
- Create a Local File
- Checking Out Worksets
- Modifying Worksets
- Saving Worksets
- Other Workset Types
- Team Project over a Shared Network
